

BLOCKCHAIN FORUM – THE ROAD MAP AND OPPORTUNITIES AHEAD

JULY 22, 2020 | ONLINE

UNICOM PRESENTS

BLOCKCHAIN FORUM JULY 22, 2020 | ONLINE

ABOUT THE EVENT

Do you have the knowledge to utilise the transformative powers of Blockchain Business Models for your industry?

This programme consists of a mix of technical, academics and practical instructions, teaching the principles of Blockchain, such that the knowledge imparted will be applicable no matter what the current in-vogue aspects of Blockchain are. Here you get to know how things were, how things are with early adoption of Blockchain technology and how things may be in the future if the potential of Blockchain technologies is realised.

With the uncertainty over the complete lifting of the lockdown, at UNICOM, we have devised an Online Forum, spread out over a day of around four hours. Here the sessions are in an interactive format, providing a digital experience of a physical conference for all remote attendees. Here delegates actively participate, communicate through Q&As, network with peers and panellists during the sessions and intervals respectively.

Time: 14:00 – 18:00 IST / 09:30–13:30 BST / 18:30–22:30 ACT/ 16:30–20:30 SGT
(Please note the Time of the session has been chosen to cover APAC, Oceania, UK time zones to achieve global connectivity)

BLOCKCHAIN FORUM JULY 22, 2020 | ONLINE
